Perennial Plants

We grow perennial plants of all kinds. These are best transplanted in fall or early spring, while plants are dormant.

Annual Plants

We grow annual plants of all kinds for bedding out in spring.

DAHLIAS

Cultural Directions: Plant about May 20th in soil prepared thus: Dig in shovel of cow manure, or two handfuls of commercial fertilizer; drive stout stakes; lay bulb flat with sprout next to stalk; cover with 4 inches of earth. Water thoroughly once a week, avoid sprinkling foliage, except to wash off dirt. Cut off all mature flowers before seeding and you will have satisfactory bloom. Take up before ground freezes; store in a dry place.

C stands for Cactus; S for Show.

HC stands for Hybrid Cactus.

D stands for Decorative.

P stands for Peony.

Pp stands for Pcmpon.

GLADIOLI

Gladioli take first place in many gardens because of their splendid show out doors and use as cut flowers, due to their long period of blooming.

Plant from April to June, 4 to 6 inches apart and 5 inches deep.

Take up before frost, dry well and store over winter.

Price, per dozen is ten times the single rate.

Price per 100 is seven times the dozen rate.

Funeral Work

Try us for funeral designs and see if you are not satisfied. We strive to give personal thought and care to each order at most reasonable prices.

Potted Plants

We carry a good line of potted plants in our green house during the winter months.

Baskets

We make our own baskets which we have on hand, and will make to order upon request.

Visitors Welcome

You are cordially invited to visit the garden at any time.
